GENERAL NEWS.

BY TELEGRAPH TO THE OREGONIAN.

Resumption of Specie Payments

NEW YORK, Nov 7—The question of the resumption of specie payments is attracting attention as the time draws near for the important event in the history of the country. There is a growing fear in the public mind that resumption will not be accomplished as smoothly as was generally expected some time since. There are undoubtedly contingencies that may arise tending to disturb monetary affairs in the operation of the law providing a paper to a gold basis and there is a growing disposition among all classes to favor a very conservative policy pending the solution of this great financial problem. Particularly the case with those thoroughly conversant with the finances of the country, where the efforts of the Bank of England to resume were not successful after financial distress and panic had ensued. The antagonistic position of the New York banks on the silver question has created an unfavorable impression on the public mind, which, previous to the action of the clearing house, supposed that resumption would be an easy matter. The treasury has on hand about $138 000 000 in gold for redemption, with legal tenders outstanding to the amount of about $348 000,000. The amount of gold for resumption will be required on the payment of interest on bonds January 1st, by about $21,000 000. This leaves about $118 000 000 in gold for redemption. Should the amount of current circulation be reduced this amount it would undoubtedly have an unfavorable effect on business transactions.

As a Matter of Course

RICHMOND, Va., Dec 7—A committee of the general assembly, appointed to inquire into the affairs of the present session reported to both houses to-day, recommending the passage of a resolution that this is a special constitutional session and that it is inexpedient to legislate further on the subject.

The Northern Railroads

MONTREAL, Dec. 7—Montreal papers state considerable interest is felt there in a movement for the union of the Grand Trunk and Vermont railroads, as it makes Montreal a point for an immense trade which now finds an outlet at New York or Baltimore. The reconstruction of a line from the present terminus of the Wabash at Toledo to the Grand Trunk junction at Detroit, and thence to Port Huron, a total distance of 110 miles, would obtain a continuous line to Kansas City and control of the route for the purposes from Chicago. It is stated that the Grand Trunk hopes in this way to discount Vanderbilt's victory in the acquisition of the Michigan Central and his cutting off the Grand Trunk from Chicago. The Wabash instead of striving for, will now compete with the New York Central, Great Western and Canada Southern for the through traffic. Under the management of Garrison, who is also president of the Missouri Pacific railroad, two other associates are directors of the St. Louis Kansas City & Northern road, the latter will not only fight the Chicago & Alton, now building a competitive line to Chicago, but extend its present line from Quincy, Illinois, to Chicago, and try to get possession of the Hannibal & St Joseph.

School House Burned.

DES MOINES, Iowa Dec 7—Fire at Albia Iowa yesterday destroyed the public school building. The scholars escaped with but few injuries.

The Devonshire Released

HALIFAX, Dec 7—A cable received this morning from Buenos Ayres says the bark Devonshire which was seized by the Chilian war vessels while loading guano at Monte Leon has been released and is on the way to Montevideo. The Chilian government having decided that the vessel and cargo to the captain.

The Chinese Famine

A dispatch from China state that during the past year seven millions of people died from famine in the single province of Shansi. The amount of contributions from the eastern provinces to November last was $22 670 which was distributed judiciously, so reports say.

Statement of Business in Money.

The weekly statement of associated banks shows the following changes: Loans decrease $2,777,100 specie, decrease $2 797 000 legal tenders decrease $1,314 700 deposits decrease $281,400, circulation increase $20 000 reserve, decrease $4 177 750. Banks now hold $3,365,050 in excess of legal requirements.

Fire at Macon.

NEW ORLEANS, Dec. 8—Private dispatches announce the destruction of fifty houses in the business portion of the town of Macon, Miss. Loss two hundred thousand dollars, insurance $103 000.

Explosion.

CINCINNATI, Ohio, Dec 6—An explosion occurred in the Briarhill furnace this afternoon in which several men severely and broke some fatally unknown.

Dishonest Officials.

DANVILLE, Va., Dec 7—The grand jury found to-day found forty four indictments against Livingstone and other Indian Bureau employes. Living stone, Richardson and Russell were arrested to-day on one joint indictment and released on the 23d.

Tramp, Tramp, Tramp.

PHILADELPHIA Dec 7—O Leary had made his last walk to-night, when he retired for his rest.

The Walk Completed.

PHILADELPHIA Dec 8—O Leary had 45 minutes to spare in his match to walk 400 miles in 6 days.

The Shame of Congress.

NEW YORK, Dec. 8—Business is agreeably disappointed by the first week of congress, which, instead of precipitate wild schemes of financial and commercial inter... it seems evident that the recent elections, having a decidedly conservative tendency. There is no longer any danger of serious attempts at interference with the resumption act. Many congressmen who are opposed to resumption write to friends that to attempt to throw obstacles in the way of the law now would be fallacious and impolitic.

Tendency on the Silver Question

Additional views on the silver question have naturally modified. The operation of the Bland bill has disappointed many of its friends, who need Senator Jones sadly to raise their backs. Others begin to feel that the silver dollar should be made substantially equal in value with the gold dollar, and that this can only be done by silver exportation, the evil effect of which would right itself, and meantime silver would have formed a profitable foreign market for its surplus and other American products. Others admit that we can't maintain the standard now that the international conference has failed to bring us into accord with foreign countries as to the relative valuations of silver and gold in coinage. The talk of fighting the banks for refusing silver except as special deposits has ceased, because it is seen that congress cannot legally object unless it first compels the banks to redeem silver legal tenders in gold as well as greenbacks. Besides Democrats see that they cannot be united in such a way as to obtain legislative proposition unless silver certificates became redeemable only in greenbacks. This would practically constitute its paper representative of a greater depreciation and the question on the specie question and would seem growing to bring legislative harmony with the result of financial experience illustrated by the Bland bill. Since the treasury stopped issuing certificates they are commanding a premium. It is already foreseen that next year, when treasury payments will gut the market of silver for called bonds, and $21 000 000 will be paid for called bonds, and $21 000 000 will prefer legal tenders to paying cartage on metals. The effect totally blocks all gold speculation as paper will then be worth more than metals by the difference in the cost of handling.

More Talk about the Presidency

NEW YORK Dec 8—Democratic presidential makers for 1880 now suggest the propriety of taking their candidates from important doubtful states. The rules Hendricks sent because Indiana is counted sure for the Democracy and Thurman comes to the front again because Ohio is so uncertain. It also leads to talk of Wallace of Pennsylvania and revives the hopes of Tilden's friends that if he fails to get the first place on the ticket Clarkson N. Potter or some other New Yorker may get the second place with Thurman.

Senator Bruce (colored) thinks that Grant's name is such a tower of strength among the southern blacks that they will be nearly unanimous for him in the next national convention. Blaine is the only man probably that could divide that vote with Grant.

The *World* forcibly argues that if Grant is the Republican nominee the Democracy can win by nominating Bayard on a sound hard money platform by carrying Connecticut New York and New Jersey with the solid south.

Death of a South American Ruler

PHILADELPHIA, Dec 8—A cable dispatch was received here yesterday stating that President Alcantara chief magistrate of Venezuela died November 30th and that J Gutierrez chief justice of the high federal court was acting as president.

WASHINGTON CITY

The Seward Inquiry

WASHINGTON Dec 7—The investigating committee of Representative Springer to examine charges against Geo F Seward U S minister to China has determined to make public in advance of the cross examination of Ex Consul General G Wiley Wells the contents of a deposition received from Dr McCartie stating the purport of conversations at his house with Seward and Bradford.

Mecham gets a Say

The joint commission considering the transfer of the Indian bureau from the civil to the military department, to day heard the views of Col A B Meacham. He holds that the only solution of the Indian problem is in civilizing and educating the Indians that they may support themselves. In the past 20 years he has not known a case where disturbances between whites and Indians have occurred except through the breaking of treaties by the former.

The Prepared Army Bill.

CHICAGO Dec 7—A *Tribune* Washington dispatch says that the joint army commission has decided on the army bill, which does not materially change the fighting force, but only the staff.

Postal Changes

WASHINGTON, Dec 8—Postoffices established Cascade Locks, Wasco county Oregon Ashley H Ball postmaster Milton King county W T, Walter D Cotton postmaster. Discontinued Dardanelles Jackson county Oregon St Joseph Yamhill county Oregon. Postmasters appointed Henry C Coe Hood river Wasco county Oregon N Abbett Wheeler, Alpowa Columbia county W T Fred W Wilson Coveland Island county W T.

The Chinese Question

WASHINGTON, Dec 6 — Representative Horace Davis as the result of continued reflection and further inquiry concerning the feeling of congressmen on the subject has arrived at the conclusion that it would be a wise policy for the Pacific coast delegation to procure at the hands of the house committee on education and labor a nominal modification of the bill concerning Chinese immigration which they have agreed to report to the house for action when reached in the regular call. The committee's bill as it now stands prescribes penalties of fine imprisonment forfeiture &c against the bringing or landing of more than fifteen Mongolians by any one vessel and Davis thinks the same object of discouraging and practically preventing the influx of Chinese can be effected without those penal provisions which in his opinion are likely to prejudice many eastern members against the whole movement. His plan is to substitute for them a heavy capitation tax say $50 or $100 for every Chinaman carried or landed in excess of fifteen on any one vessel, and provide that money thus collected shall be devoted nominally at least for the benefit of the Chinese in returning sick and indigent Mongolians to China and in building quarantine hospitals and large houses etc, for the reception of such passengers when landed. Provisions of this sort would quiet the scruples of many eastern men who might refuse to vote for any measure which in plain terms proposed to make a criminal misdemeanor of actions on the part of shipowners and others which are allowed by treaty stipulations. Legislation of this quasi benevolent character though forbidden to states is clearly within the jurisdiction of congress and a bill thus framed, would in Davis' opinion have vastly better chances of enactment than the one now pending which would practically accomplish nothing more.

Schurz on the Indian Question.

WASHINGTON Dec 6—The joint commission for considering the transfer of the Indian bureau to the military department heard Secretary Schurz to day. He disclaimed any personal desire to retain control of the Indian service under the interior department. No branch of the department's business is so troublesome and thankless. He thought the Indians entitled to humane treatment and that this could only be tendered through the processes of civilization education and kind treatment. The military were not fitted for this work. The secretary quoted from the report of the Sioux commission signed by Gens Sherman Terry Augur and others setting forth in effect that if peace with Indians was required, the management of their affairs should be placed under the civil department of the government. Now I agree with these gentlemen on this point. There are a great many officers of the army who have excellent ideas about Indian affairs but it is another thing to bring ideas into practical effect. The military arm of the government he did not consider gifted with the patient labor required to place the Indian a hand and teach him how to use it. He denied very emphatically the red tape system of reporting Indian outbreaks which had been asserted was required under the present administration of Indian affairs. When ever a case arises where prompt action is necessary he in person communicated with the secretary of war, or with the general of the army thereby causing but very few hours delay in perfecting the necessary arrangement to meet emergency rather than months as intimated by Sherman. He claimed that the demand for the transfer of the bureau from civil to the military department was based upon assumptions rather than upon facts. History will prove that the Indian bureau is credited with Indian wars which in reality occurred previous to its organization under civil management. He can not a majority of wars in his opinion, is the breaking of treaties together with the encroachment of greedy whites upon set tlements which would be peaceful Indians. He did not believe such military officers as Gens Sherman Sheridan and others desired war but subordinates who had reputations to make were not too keen for peace especially with the Indian race. Army officers the secretary said in reply to a question by Gen Hooker who have been in charge at the Indian agencies have been very faithful and efficient. Their duties were however in connection with an unsettled state of affairs and not with a view to civilizing the Indian. The secretary advised the placing of troublesome Indians on a reservation under martial law and of increasing the number of the Indian police force from 450 to 1 000 or 1 500. This force was very reliable and had rendered good service.

Schurz stated that he had read in the papers a statement by Gen Marcy that when in the war department the bureau was worked smoothly enough that there was no mismanagement and in fact no suspicion of any. It was in fact as he had said at times had descended upon earth doing, gentle ministrations among savages to lead them to a higher state of well being. It was easily proved that this was far from being the case. A report of the committee to the house of representatives made in 1st when the war department had charge of Indian affairs charged cases with unparalleled negligence that accounts showed an almost total want of method economy of expenditures were carelessly kept and that there are scarcely any traces of expenditures of very large sums. For several years entries were made in so slovenly a manner that the very clerks themselves could not explain them. There was not a single entry referring to Indian land and all records left by the Indian officers in the war department were scraps of memoranda in pencil notes etc. To bear out his statement with respect to this malfeasance he quoted from a report of Lieut Gen Hitchcock and instanced the action of the department in reference to the removal of the Cherokees. The contract was made at $16 per head and 6 000 Cherokees were moved; but for 60 in excess of these Lieut Drummer were charged and paid for—making the actual payment $201 in excess of $101 per capita.

Conover and the Hot Springs Matter

WASHINGTON Dec 7—The Senate committee inquiring into the collusion of the Hot Springs claim from the sundry civil appropriations bill met to day. Theo H Johnston clerk of the post office department testified that he met Senator Conover in August last and had a conversation with him in reference to an attack made on the characters of both by Benson of the treasury secret service. Prior to this interview he had never conversed with the senator or in relation to the Hot Springs matter. Benson and another employee of the secret service, division of the treasury had called at the post office department and desired him to tell them all he knew about Hot Springs matters. Conover asked whether he had been to New York in January in the interest of certain parties in Washington. Told him he had not and also that he (Johnston) was not at the capital on the last night of the session. The latter remarked they had affidavits of three persons that he had been seen acting around the hall of the senate and had been seen to take a paper from Mr Pierce Senator Conover's clerk who told him to get away with it. Witness replied that it was a pack of damned lies and suggested there was some mistake about it. The latter said there could be no mistake. Witness went to acting postmaster general Tyner and told him that an outrageous attack had been made on a witness and Senator Conover and asked leave of absence for a few days to investigate the motive of attack. Did not ask who made the affidavit, for he did not believe that any had been made. Had had conversations with Mr Pierce in relation to the matter. Rice characterized the whole story as an outrageous tissue of falsehoods calculated and intended to injure Senator Conover. Had no knowledge of the abstraction of papers and had never said he had.

EUROPEAN NEWS

Afghan Matters in Parliament

LONDON Dec 7—In the house of commons Northcote agreed to postpone the report on the address until Monday when it will be the first subject to be discussed and Whitbread's resolution will be moved as an amendment thereto. Lord Hartington gave notice of the intention of himself and his followers to support Whitbread's resolution. Sir Stafford Northcote said in reply to the dispatch of Lord Lytton relating to the possibility of a direct understanding between England and Russia for wiping out Afghanistan could only be regarded as the personal opinion of the viceroy as to the probable result of the ameer's policy. There was no ground for supposing that it referred to any direct or formal proposal.

Eastern Matters

The sultan has declared that the appointment of Camilheodori Pasha as minister of foreign affairs implies the intention of carrying out the treaty of Berlin, and that the new ministry was formed to satisfy Europe and to attempt an internal reorganization.

Statement from the Captain of the "Pomerania"

HAMBURG Dec 8—Capt. Schwenzen of the *Pomerania* publishes in a newspaper of this city a statement of events relating to the catastrophe of midnight Nov 25. He says: When the steamer sunk I was sucked down into the vortex. I didn't have on a life belt and only gained the surface after a desperate struggle where unfortunately I encountered a spar guided by which I floated for an hour and a half. I seemed to be utterly alone on the surface of the water until at last the lights of a steamer (the *Wyoming*) hove in sight. The *Amsterdam* came in sight. I shouted and was heard and a boat was sent and I was taken on board the steamer in a semi unconscious state. My watch stopped at 1 23 thus I am able to fix the time exactly. Chief Officer Franz I was on deck directing the boats and superintending the lowering of the boats until within 5 seconds of the sinking of the *Pomerania*. Dr Schwenzen the surgeon was also distributing life belts. Chief Engineer Helms assured me soon after the collision that steam had been shut off from the engines but by some means water in the engine room that nothing could be done. Second Officer Folkes was on deck to the last and declined to enter the boat refusing to leave his captain. Third Officer Zanrow was at his post till the sinking of the ship firing rockets. Thus it will be seen that the first engineer second and third officers and surgeon perished while doing their duty. As to myself I say nothing only that I was saved by a miracle. The captain will remain for the present at Hamburg on account of his serious illness growing out of the great shock to his nervous system. His physicians encourage the hope that he will soon be out once more restored to health.

MONDAY MORNING, DEC. 9, 1878.

THE PROBLEM OF RESUMPTION.

We have by telegraph some speculations on the probable difficulties of resumption. There is another view of the subject which may be stated something like this: The treasury holds say $138,000,000 of gold, though this will be somewhat reduced on the 1st of January by payments of interest. The amount so paid will, however, be speedily replaced by accumulations from duties. But a most important factor in sustaining resumption will be the amount of greenbacks controlled by the government. This amount, in the treasury and depositories, is estimated at $100,000,000. The national banks hold a further very large sum in their reserves, much of which will not be presented for payment. It is considered safe to put this amount at $50,000,000. The treasury authorities estimate the greenbacks lost or destroyed at $20,000,000. Here, then, we have an aggregate of $170,000,000 in greenbacks which will not be presented for redemption and will give the treasury no present trouble. The whole sum outstanding, according to the books of the treasury, is $348,000,000. Deducting the $170,000,000 of the above estimate, and there remains the sum of $178,000,000 liable to be presented. But these are distributed at large through the channels of circulation, and cannot at once come to the treasury; and confidence is likely to be established in a short time so that the demand for their redemption will be quite small. If the figures as above presented, which are taken from authorities upon which the treasury relies, be not quite erroneous, there is now in the treasury gold enough within $40,000,000 to redeem all the greenbacks that could be offered, even supposing the whole amount not controlled by the government or required to be held by the banks in their reserves, be offered at once—a supposition which clearly it is not necessary to entertain. Congress by a single resolution could put the success of resumption beyond every possible question by simply directing the secretary of the treasury to destroy greenbacks when redeemed as fast as it might be necessary to prevent or check a continued run on the treasury. But that which has been aptly called "Sancho finance" has so great a hold upon congress that, instead of making successful resumption a certainty by this simple method of common sense, congress has actually directed the secretary to issue greenbacks again as fast as they may be taken in. We have in this act an illustration of the extent to which the notion has become established that the government by issuing paper currency can create values, and that any contraction or retirement of such currency takes wealth away from the people. In the above statement no account is taken of the silver dollars in possession of the treasury; for though the sum is nominally quite large and the treasury has a right to pay them out for redemption of greenbacks, the silver dollar may ultimately prove to be a main difficulty in this complex problem of maintaining resumption. If the treasury should offer this dollar first, it would be resumption on the silver basis, or in other words not true resumption at all. If silver is to be paid at last, that is after the gold is [illegible] gold, by creating an impression that those who are tardy or late may have to take silver. If this disturbing element of silver were eliminated and congress would authorize the secretary to destroy greenbacks when redeemed as fast as circumstances might show it to be necessary, there would not be a moment's doubt in any mind as to the full success of resumption. But our legislation, instead of being framed, in accord with the laws of finance and trade, is so governed by demagogism and ignorance that it constantly runs counter to them, and there is probably no hope for anything better.

THE SOUTHERN ELECTIONS.

In order to get at the truth respecting the manner in which the recent elections were conducted in the southern states, the best thing one can do is to take the testimony of thoroughly independent and non-partisan journals. This is a subject which has become one of national interest and importance. If the whites of the south have resolved to annul the political rights of the negro, and to use their power thus acquired to possess and control the government, citizens of every part of the country ought to know it. In such event they will take that action which may seem necessary. From all the testimony it would seem that Louisiana is the only state where actual violence has this year been employed. In several other states, in Florida, in the two Carolinas, and in Virginia, other methods were pursued on this occasion which the New York *Herald's* correspondence very fully exposes. The favorite devices this time were those of stuffing the boxes with little thin ballots, abstracting Republican and substituting Democratic votes, boldly falsifying the result in the count when this was the last resort, and arresting and lodging in jail on charge of perjury all who alleged unlawful interference with voters or tampering with the ballot-boxes. Reviewing the statements furnished through its correspondence, the *Herald* says: "We had hoped never to witness a revival of such stories, trusting that the southern people, after recovering the right of self-government, would avoid from motives of policy, if not from a sense of justice, a repetition of the scandals which have been so damaging to the good repute of their section. The past would have been overlooked and forgotten, or attributed to great provocation if remembered, if their recent conduct had not made forgiveness impossible. If this thing goes on the north will again be as thoroughly united against the south as it was during the period of reconstruction." These words coming from so independent and conservative a journal as the *Herald*, are full of meaning. Of the new methods employed in the recent elections the *Herald* says: "Instead of intimidating voters it has been found easier to allow free access to the polls, falsify the result in the counting and then bulldoze the witnesses who offer to testify to the facts. Prosecutions have been begun against the ballot-box stuffers and false-counters of votes, and thereupon the complainants upon whose testimony the proceedings were instituted are caught up and lodged in jail on accusations of perjury. If the perpetrators of the frauds appear in court to swear against the complainants there will be false testimony enough to convict them, and juries may find them guilty and railroad them to the state prison. The intention is to terrorize them against testifying to the truth and thus defeat the prosecutions." There is similar condemnation of these proceedings in the Philadelphia *Times* and other independent newspapers, none of which can, in question the facts alleged. In many cases the frauds were carried to an extent far beyond what was necessary for gaining the results desired. When the president referred to these things in his message it was a serious mistake in the Democratic senators, simply as a party policy, to assail him instead of denouncing the frauds which are undeniable.

A Washington despatch says: "One or two bills looking to a decrease of representatives in the house from the south on account of an alleged refusal of suffrage under the fourteenth and fifteenth amendments have been prepared." The fourteenth amendment provides that when the right to vote is denied to the male inhabitants of any state, being citizens of the United States and twenty-one years of age, except for participation in the rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such state. Since it is notorious that a large number of citizens in the southern states have been denied their constitutional right of suffrage, the remedy which the constitution provides may properly be invoked. The house will not now pass any such bill, of course; but the subject may become a fit one for consideration in the next general election. It is evident that the whites of the south are very hostile to the exercise of political rights by the negro. While there may be good ground for their objection to so large a mass of irresponsible suffrage, nevertheless they have no just right to representatives in congress for themselves and the negro too. There are thirty representatives from the south based on the colored population which this class of citizens are allowed no part, or very small part, in electing. As managed at present the system gives the white voter of Mississippi or South Carolina more than twice as much political power as the white citizen of Maine or Ohio.

A Washington dispatch says that Vice-President Wheeler expresses the opinion that the proposition to enforce the constitutional provision which requires the reduction of representation in congress of any state where the franchise is restricted, while it might not pass a Democratic house, would have a good effect. On that issue alone the Republican party could succeed in the next presidential canvass.

The czar of Russia is now represented as sorry that his generals did not occupy Constantinople last March, as had been determined in the council of war. They yielded to the entreaties of General Ignatieff and missed the opportunity of making Russia master of the Bosporus and levying a big war contribution, after the manner of the Prussians when they entered Paris.

A writer in the "organ" says that "the proudest act of Senator Grover's official life was when he cried 'halt!' to a monopoly that was seeking to control the Willamette river." We are to infer, then, that the senator is not so very proud of his operations in the school fund, after all, successful as they were—to himself.

It is pretty certain that the Democratic party of Oregon has had such warning by experience that it will not soon nominate any more rhievish experts for office.

WARM SPRINGS STILL LOYAL.

WARM SPRINGS AGENCY, Dec. 5.

TO THE EDITOR OF THE OREGONIAN:

Since the dispatch from Fort Vancouver, dated Nov. 25th, and published in the WEEKLY OREGONIAN of the 30th ult., regarding the capture of 40 Warm Springs Indians who had left the Umatilla reservation, seems to create a wrong impression upon the public mind, and is in fact partly erroneous, I deem it my duty to state the facts as to their being Warm Springs Indians. Nearly the entire party were John Day's Indians, and who have never been compelled to go on to any reservation, until they were brought to this one by a detachment of soldiers, who arrived here on the 27th ult. There are about forty all told of this party of Indians, among whom are the families of Hi-ha-ney and his brother, and Wal-so. These three men were the only Warm Springs Indians who were absent from this reservation last summer, without leave. Though belonging here, they have not been on this reservation for upwards of nine years, having left it upon the advice of a prominent white man in The Dalles, who told them they were not parties to the treaty and were not bound to stay upon this reservation. They are now held as prisoners at Fort Vancouver by Gen. Howard, but may be returned to their people upon their promising to obey the laws, both of the government and our Indian council. If they will not so promise and fulfill it is to be understood that they are to be sent off to the Indian territory or such other place as the authorities may determine. I have no confidence in them. They often gave me trouble, especially Hi-ha-ney, whom I at four different times confined in irons. As to the Indians properly belonging to this reservation, it is hardly necessary to praise them.

Their past record should be sufficient to remove even the least suspicion as to their not remaining loyal to the whites. Always their friends, and proving the same by their gallant service in the Snake war in 1867, under Gen. Crook, and again in the Modoc war in 1873. The records of these campaigns will be a lasting witness as to their fidelity and faithful service. And had a proposition been made to them last summer whose terms would have justified them in leaving their homes and ripening harvests to go to waste, or be at the mercy of hirelings, and, above all, to engage in the barbarities that almost necessarily attend savage warfare, they would have again gone forth to battle for the white man.

After having lived among or near them for upwards of thirteen years, I believe I am competent to judge of their temper and mind, and know that their professions of friendship are not idle talk. Even now they are saying that should Moses and his people, or even *all* the Indians east of the Cascade mountains, unite to make war on the whites, they will remain loyal to the latter, and willingly risk their lives in their behalf.

Henceforth let no man couple with the name of a Warm Springs Indian, who claims this reservation as his permanent home, the charge of disloyalty to the white man or his government.

Time will only prove the more that they are *true* men and can be trusted.

JOHN SMITH, U. S. Indian Agent.

WASHINGTON TERRITORY.

The railroad company at Olympia are putting up an engine and car house.

Several families from the east have recently settled in the vicinity of Olympia. The latest of these are J. M. Coolidge and family, from Kansas, and Mr. Varmer, from North Carolina.

The Chinamen who worked on the Seattle railroad appear likely to be bilked out of their pay. Claims to the amount of about $10,000 have been brought into court and decided against them, on the ground that the work they did was for a subcontractor and not for the railroad company. They will appeal to the supreme court of the territory.

Tacoma *Herald*: Gil Black, superintendent of the Pacific division of the N. P. railroad, is credited with having said that his convictions were that within sixty days preparations would be made for beginning work on the trans-montane line from Ortingeastward; and that within six months the work in part or whole on Snake river would be under contract. Six trains a day are now being run over the S. & W. W. R. R. between Seattle and Newcastle, and are bringing in between 600 and 700 tons of coal per day. The transportation over the road and the production of the mines is being steadily increased.

What's the Matter with the Democratic Party?

[From the Chicago Times, Ind. Dem.]

It is a fact that not merely for the past dozen years, but for at least eighteen years, the Republican party has lived through the moral perversity and mental imbecility of the Democratic party, principally through the former. If the Democratic party had had the moral virility and mental capacity to array itself on the side of freedom, justice, and honesty twenty-five years ago, and to stay on that side, the Republican party would never have lived at all. The Republican party was born, and has ever since lived, through the perverse propensity of the Democratic party to get on the wrong side of every important political question, and stay there. Its last performance was to get on the wrong side of the currency question, and make itself the party of dishonest public financiering; and if reports from Washington are true, its managing spirits are determined to keep it on the wrong side of that question. The men who dictate Democratic party policy seem to be completely infatuated with the notion that the way for a party to win is to make itself the champion of some species of wrong or rascality, and that success sanctifies a party, no matter how abominable its doctrines and purposes. Their cardinal principle seems to be that a majority of the people are depraved enough to go with the party which is most likely to introduce cheating or some other form of deviltry on a national scale. It is pretty safe to say that no party which takes this for its cardinal principle can achieve more than a temporary success.

An Important Lesson.

[From the Buffalo Courier, (Dem.)]

The eastern Democracy have learned an important lesson. To maintain our organization and strength intact we must fight the "greenback" enemy, not treat with him. Only in this way can Democratic defection be prevented. By such an aggressive course New York was saved to the Democracy in 1875, when the soft money craze in Ohio and Pennsylvania had seriously impaired the party prospect. To the same tactics the Republicans are largely indebted for their present success. The effects of the election will doubtless be felt in congress at this coming session.

Senator Lamar says that the yellow fever scourge was, in proportion, a far greater calamity than the war, and a terrible blow to the south, which was just beginning to revive after the prostrating effects of the war. "It will take years to rebuild and get back to the starting place again."

CITY.

OPIUM SMOKERS "PULLED"—For some time past the police have had strong suspicions that one Sam Sing, who lives on the south side of Yamhill street, between Third and Fourth, keeps an opium den But the wary Mongolian always managed to avoid detection and arrest. However, yesterday afternoon Officers Henline and Daniels made an unexpected raid on Sam Sing's house and succeeded in capturing five persons—Sam Sing, the proprietor, George Williams, Charles Smith, Maud Cranton and Lillie Jones. These persons were taken to jail but Williams and Smith and the two "soiled doves" were released, each defendant having deposited the required bonds for appearance Sam Sing was not furnishing the bail required was committed. The cases will be investigated in police court to day. We are gratified to note the enforcement of the ordinance which prohibits opium smoking. Let the good work proceed.

DIPHTHERIA.—The following from the Enterprise should be read in every community where diphtheria prevails:

"In conversation with the leading physicians of Chico, they give it as their unanimous opinion that where diphtheria makes its appearance in a family, every precaution should be taken to prevent its spread. While it is not considered so contagious as small-pox and some others, the germs of the disease survive longer than almost any other. The patient should be isolated so soon as the malady develops itself, for by bringing others into contact we endanger their lives. The premises should be promptly and thoroughly disinfected. For this purpose diluted carbolic acid has no superior. All cloths used for absorbing the saliva or cleansing the throat should be instantly burned. By laying them aside you only sow the seed broadcast. People do not sufficiently appreciate the importance of such preventive measures."

RUNAWAY.—Saturday morning a horse attached to a dray ran away and proceeded up First street to the corner of Washington, where a lamp-post offered some slight obstruction to his travels, which was easily overcome by breaking it close to the base as easily as he would a match. Proceeding up the sidewalk he encountered a miss some whom he knocked down and ran over with the dray, happily doing her no injury. The posts of Franck Lyn's awning next door fell to the sidewalk in a dilapidated condition. After having made a clean sweep of the sidewalk all along from Washington to Alder he capped the whole affair by flooring the lamp post in front of Fishel & Roberts' clothing store and proceeded on his way undisturbed and unobstructed until he was captured on Third and Morrison streets.

LADIES' FAIR.—One of the chief attractions in the city the ensuing week will be the ladies' fair to begin at Good Templar hall to morrow evening. Those who have charge of it have determined to spare no pains to make it a popular place of resort. We are requested to state that no raffles will be held and those who patronize the fair will get the full worth of their money. A great variety of useful and fancy articles presented to, or made by the ladies will be offered for sale at reasonable prices, and refreshments will be furnished to those who desire them at the usual rates. Some excellent musicians have volunteered to entertain visitors who have a taste in that respect. The cause in the interest of which the fair is given is a worthy one and none should fail to encourage it.

FOR TELEPHONE LINE.—Mr. Guild who is the agent in this state for Bell's telephone, has the contract of building a new telephone line from Portland to Oregon City. As we understand, the line will be constructed by a joint stock company, the Willamette Iron Works, Locks Company, Messrs. Church and Ladd and others taking the principal shares of the stock. The line will be built along the west bank of the river. The line will pass through Oswego. Work has already been commenced, and will be crowded forward to speedy completion. The construction of such a line will be a great public convenience.

SOLDIERS' REUNION.—To morrow (Tuesday) evening, the soldiers' reunion will be held at Turnhall hall, corner of First and Madison streets. Extensive arrangements are being made by the committee to make it a pleasant and profitable time. Exercises will commence at 8 o'clock sharp. Addresses will be made by Rev. T. L. Eliot, Rev. J. A. Cruzan, Major Newbury, and others, interspersed with choice vocal and instrumental music. A cordial invitation is extended the public.

ARRIVED.—We are pleased to learn that our young and handsome friend, Mr. Joseph H. Batchelder, has been appointed clerk in the chief quartermaster's office at Vancouver, vice Mr. E Dawson, resigned. The appointment is an excellent one, as Mr. Batchelder is well qualified to discharge the responsible duties of the position.

PHILOMATHEAN MEETING.—A number of members of the Philomathean Literary Society met on last Monday evening at the office of Hon. Loyal B. Stearns and decided to resume the sessions of the society during the present season. Another meeting will be held at the same place to-night at 8 o'clock.

THE STEAMER.—A dispatch from Astoria Saturday afternoon says that the steamer arrived there at 2 o'clock and was to leave for Portland at 6 o'clock P. M. The Ajax will stop at Eagle Cliff. She will arrive here early this afternoon.

BAR.—A dispatch from Messrs. Leonard & Upshur last evening at 6:30 o'clock says that the weather is clear; the bar very rough; no wind. The barkentine Hamilton crossed to sea Saturday.

PUGET SOUND.—Mr. Daniel Frohman, manager of Callendar's Georgia Minstrels, leaves this morning for the Sound to prepare the way for the company at Victoria and Seattle.

ILL.—We regret to announce that Major E. Hacke is lying at his residence on Sixth street, quite ill. His many friends will be pained to learn of his early convalescence.

P. P. A.—This (Monday) evening a meeting of the Exempt Firemen's Association will be held at the police court room at seven o'clock. A full attendance is desired.

ARRIVED.—The steamship *Oregon* arrived from San Francisco early yesterday forenoon. The steamer crossed the bar last Friday at 10 o'clock A. M.

LECTURE.—Rev. P. S. Knight, of Salem, will deliver a lecture at the court house in Oregon City Friday evening, December 13th for the benefit of the Free.

FROM THE MOUNTAINS.

R. J. M. Harrison, of Lane county, who is now in the city, writes as follows:

"I am now on my way home from an extended trip through eastern Oregon, Washington Territory, including the Palouse and Spokane countries. Immigration into the two last named sections had about ceased for this season. Many were still looking for locations, but complaint was made of the extortionate charges made for provender, by those living on the highways, the feed being ate off in the mountainous portion of the way, left the immigrants to their mercy. It cost many as they told me, nearly their all before they anticipated to reach the valley where they intended to locate, having those of small means with nothing left on reaching the wheat region. There being no employment to be obtained, much suffering is likely to ensue. Some apprehension is felt in the upper country of an Indian outbreak the coming summer if the Indians get plenty of lands in western Oregon. I think (all things considered) offer better inducements to settlers than any found in the Palouse country.

PERSONAL.

Our clever actor and gentleman, Walter M. Leman, has our sympathy and condolence in the death of his wife, Republic.

Mr. P. B. Ingersoll, we are sorry to learn, is quite ill with typhoid fever. The crisis in his case has passed, and he is now recovering, and his many friends will be pleased to learn that he is now very low.

FOOTPADS.

MR. GROJEAN ROBBED ON THE HIGHWAY BY TWO MEN —THEY GET $100—HE IS SHOT AT TWICE—VERY NARROW ESCAPE

About noon Saturday a young man named Grojean was robbed by two men on the public highway some eight miles below this city, and $300 taken from him The circumstances of this very bold robbery are as follows.

Grojean has for several years been employed as a butcher, working for a time at the shop of Chris Schlish, and also for Mr. Ad Burkhardt. Of late he has been working for Mr C. R Hofman, the butcher Saturday morning he left this city on horseback and started down the river on the Springville road. He was to take a horse down to a farm some distance below the city, and then to cross over the mountains to Washington county to purchase a lot of sheep for Mr Hofman Grojean had $400—$200 of which was in gold and $200 in currency. He was riding one horse and leading the other At a point about eight miles below this city he overtook two men on foot When he came up with the men he paused a moment The men indeed, and after passing the time of day, asked where he was going Grojean replied that he was going to cross the mountains to Washington county Just at that moment one man was between the two—one standing on each side of the road. Suddenly, one of the men sprang at Grojean and grappling with him, attempted to pull him off his horse The other man at the same instant drew a pistol and shot at Grojean The first shot struck the pommel of the saddle and passed nearly through it The highwayman cocked his pistol and fired again The muzzle of the pistol was only a few feet from Grojean when the weapon was discharged. So close was the pistol that it set fire to his clothes. The ball struck on the left breast near the heart Fortunately Grojean had a photograph in his pocket which caused the deadly missile to glance off and did not touch the flesh. Both men then closed in and dragged Grojean from his horse, and took from him $300. This money he kept in his left pocket. He had a few dollars in silver in his right pocket, but the robbers did not take it.

After relieving him of his money the highwaymen took his pistol and, leaving Grojean, struck out for the mountains. Grojean came on and very soon notified three men of what occurred. These men started in pursuit of the robbers, but at last accounts they had not been overhauled The men who started in pursuit after tracking the highwaymen for a short distance, found the pistol which had been taken from Grojean. Chief Besser was notified and a description of the highwaymen. This is certainly one of the boldest robberies which have been committed for some time Mr. Grojean has good reason to congratulate himself on his very narrow escape.

Show windows are looming up, which means that the holidays are not far away.

Mrs. Scott-Siddons was giving readings in Virginia City a few weeks ago. She is en route to the east

The motion for a new trial in the case of Archie Brown will be decided by Judge Bellinger next Saturday

Oregon is making a fine reputation in the way of murders, robberies, burglaries, etc which hopeful signs of moral improvement are quite encouraging to say the least.

A few days since two boys were playing in the vicinity of Stark and Sixth streets, when one of them pushed his companion down, and in the fall the little fellow, a son of Mr. S. Wolf, broke his arm. The boy is getting over his troubles.

STILL IN THE LEAD.

IN VARIETY, STYLE, ELEGANCE OF GOODS AND LOW PRICES.

In displaying my holiday stock I take pleasure in announcing to the public that my selections this season while in San Francisco have never been surpassed by any one—it being the first invoice of jewelry, watches, diamonds and silver ware ever imported into the state. Owing to the prolonged continuation of hard times in the east and California, I was enabled to purchase at prices greatly below anything heretofore, and my customers are thereby gainers in being able to obtain fine goods at prices materially reduced from former times.

I cordially invite the public to examine my stock and ascertain for themselves, assuring them that my well established reputation for fair dealing will be maintained, knowing that my goods cannot be excelled, and the prices are as low as honest competition can place them.

In presenting the above for public consideration I feel convinced that the patronage so liberally extended me heretofore will be continued as I will leave nothing undone to please and satisfy all. L. C. Henrichsen, 149 First street, Portland.

Call in at the Home Restaurant and have something cooked nice to eat by French John. Open all night. Coffee and tea a specialty.

All kinds of sewing machines repaired at No. 32 Yamhill street, by John Barbey.

Theatrical Costumes —Send stamp for price list of masquerade suits, all kinds of masks for sale, and wigs and beards for rent at Mrs Charles Tichner, Portland, Oregon.

If you think of furnishing a house with a part or entire outfit of furniture, and do not wish to pay too much for the articles necessary, go to Edwards & Birmingham, Centennial block. They have what you want and the prices are the lowest.

Albert Bartsch has received by the steamship *Oregon* an additional stock of Pianos and Organs, which he offers the public for the holidays at very liberal prices. Fine upright pianos from $350 upwards to best Steinway A selection for all customers. Call and see He respectfully asks a trial and an examination of prices in comparison to others. Third street near Taylor, Portland, Oregon.

INTERESTING TO LADIES — Dickey's "Creme de Lis" has now been before the public for ten years, during which time this beautiful preparation has met with the highest approval at the hands of the fair sex—being as all who have used it will verify, the only perfect preparation of its kind. Every ingredient entering the composition of Dickey's "Creme de Lis" is subjected to the most rigid test of modern Chemistry, to insure the uniformity and purity of its combination, and neither time nor expense have been spared to make it perfect—It being well known the public will appreciate and support a truly meritorious article. Several new beautifiers under various names have lately started into existence, but Dickey's "Creme de Lis" has no competition in merit. Sold by all druggists.

AMUSEMENTS.

MISS CAVENDISH.—This eminent emotional artist will leave San Francisco this week, and is to open next Monday a New Market Theater for a brief season. She will appear in her great impersonation of "Mercy Merrick," in "Any Magdalen" Miss Cavendish comes to us with the very highest endorsements of the London and New York press Not since the days that Charles Kean, the great English tragedian came to Portland and played a short season at the old Willamette theater, are we to be favored with a professional star from one whose coming is preceded by an established reputation on both sides of the Atlantic. Such an actress is certain to be accorded a hearty welcome at the hands of the Portland theater goers.

THE MINSTRELS.—New Market Theater was jammed full last afternoon at the matinee performance Not a vacant seat could be found A very enjoyable programme was rendered In the evening the minstrels appeared for the last time to a large audience A new programme was given which as usual afforded great merriment The short season of minstrelsy has been eminently successful artistically and financially. This morning the company start for Eugene City Performances will also be given at Corvallis Albany and Salem The company will return to Portland Friday morning and will appear at New Market Theater Friday and Saturday nights in conjunction with Maguires dramatic company in "The Octoroon" and "Uncle Tom's Cabin."

ATTRACTION EXTRAORDINARY.—John Maguire, with his usual managerial liberality has prepared a most agreeable treat for the theater goers of this city, by the engagement for two nights more of the Georgia Minstrels, who will appear next Friday evening in conjunction with the excellent dramatic company in the revised version of "Uncle Tom's Cabin" The play will be cast to the full strength of the company, with the Georgias in their plantation melodies Mr. W. W. Morris the middle man of the minstrel company, plays Uncle Tom This we believe, is the first time that the character has been taken by a genuine colored man The piece will be mounted with new scenery—one view of the Mississippi from the brush of Mr Porter, as this is a special engagement lasts but two nights, there is not a doubt the theater will be tested to its fullest capacity as to seating accommodation. There was a rumor circulated on the streets yesterday that the three front rows of the gallery would be reserved as well as the lower portion of the house, but the manager assures us there is no authority for such a statement. The prices of admission will not be changed Seats can be reserved for either night at Morse's on Tuesday morning, and also for the matinee Meanwhile everything is prepared for the reception of the gaily arrayed famous *artiste* Miss Ada Cavendish, who will introduce herself to Portlanders as Mercy Merrick in the "New Magdalen," a part which she plays for one entire season in London Truly John Maguire, by his superior management, has given this city the most brilliant theatrical season it ever enjoyed, and deserves the success that attends his efforts in giving the public such really fine attractions.

JEWELRY OPENING.

Mr J. Van Bearden has recently returned from Paris, where he went as commissioner from Oregon to the exposition, bringing with him a magnificent stock of the newest designs in plain and fancy jewelry and a line of watches superior to any in this market. Mr. Van Bearden has opened a suit of show rooms in Church's building, No. 162 First street, up-stairs, and will be happy to have the public inspect his stock and learn his prices.

MAGNETISM AND MEDICINE.

WONDERFUL CURES BY THE CELEBRATED HEALER, DR. D HALL M'LENNAN, JR.

Have been troubled with varicose or enlarged veins and relaxation of the muscles for two years Consulted a number of physicians. The only thing they recommended was to wear an elastic stocking, but finding my case getting worse I applied to Dr. McLennan, who cured me in three weeks without using any medicine

The above is the recommendation of Kenneth J. McQuarrie, Lock keeper with Messrs Corbitt & Meleay, First street, opposite New Market Theater, Portland, Oregon.

READ the following letter which is a copy from the origin l

EAST PORTLAND, Oregon, Nov 20 1878

Dear Sir—I am glad to report a thorough cure of my case I had previously doctored for ten years with, at most, benefit and I attribute my recovery, solely to your advice and your wonderful powers, and peculiar method of treatment You have my heartfelt thanks for this effectual relief from misery and suffering and you are at liberty to refer any like sufferers to me as a token of my esteem and good wishes Yours truly,

FRANK HOWARD.

The above letter is from a patient who has suffered for 12 years with nervous and physical weakness and chronic starch His letter, with many others, may be seen at my office, where reference can be had to my patients, who are amongst the best classes of society.

I have on hand a number of endorsements from patients that I have cured of catarrh, which I will shortly publish No letters are published without consent of the patient.

IMPEDING AMERICAN TRADE.

SOMETHING REGARDING THE OFFICIAL CONDUCT OF J. J. HENDERSON, U. S. CONSUL AT NINGPO, CHINA

The following article is clipped from one of the Washington City papers of Nov 30:

The official conduct of the United States consular agent at Swatow, and of the United States consul at Amoy Chinn has been of such a character as to warrant their speedy dismissal It has only been the intervention of the state department that has prevented their duly the cases should be promptly investigated by congress at the coming session as will be seen by the following history of the case Wm. Hall & Co, an American firm had purchased a large quantity of goods to be used in the trade between Swatow and China when the [illegible] informed however that about 1 [illegible] attacked by pirates their men would not work and their boats destroyed by persons under the control of the opposition line of boats Williams & Co Very naturally addressed a letter to Mr William Gregory the consular agent at Swatow, reciting the facts and asking him to call the attention of the Chinese authorities to the case. Mr Gregory replied that these attacks were a violation of the treaty obligations The names of the Chinese parties who made the threats were furnished with this request and report was also furnished that the firm had complied with all legal requirements

After some delay the firm again wrote to the consular agent, reminding him that they were under a heavy expense, and demanding to know whether the request had been complied with Mr Gregory replied that he had not deemed the matter of sufficient importance to be referred to the Chinese authorities, although a hinting that the opposing party had no right to stop them by violence, or threats of violence, and stated his readiness to refer the question to Mr. Henderson, the U. S. consul at Amoy Letter on letter was then the very novel state ment, on the authority of Mr Henderson, that the enterprise in which Messrs. Williams & Co are engaged presents a new question, and that the issue should be properly and definitely raised by petition addressed to the consul. The absurdity of such a ground will be seen when it is known that Chow Chow was opened to trade with the ports and far back as 1860 and at the time this remarkable assertion was made no less than five foreign firms were carrying on a similar business between the two points mentioned It seems to have been the purpose of this officer to place every possible obstacle in the way of this firm, by throwing upon it the burden of raising the issue whether the city of Chow Chow fou is open for trade or not The only possible question which could reasonably have been raised was that of the advisability of closing this port to trade, which is evidently a question to be settled neither by the firm of Williams & Co or Consul ar Agent Gregory Later in the case Mr. Gregory took the liberty to make an engagement with the opposing boat proprietors wherein the latter agreed to forego violence or threats Williams & Co, promptly refused to become a party to any such engagement on the ground that, that would not be safe to enter into an agreement with a lawless body of Chinese, and, secondly, that it was a matter deserving the attention of the proper Chinese authorities according to treaty obligations.

Mr. J. H. Henderson, the consul, clearly showed in his response to the petition which had been sent him, that he was resolved to consider the matter in the light of a controversy rather than that of a right. The usual "red tape" routine was not only rigidly followed but given unusual latitude He instructed Gregory not to receive or file any communications in reference to this matter unless they were prepared substantially in conformity with the treaty, law and regulations Add to this the fact that Mr Henderson entertains special hostility toward the firm of Williams & Co, and this case becomes an exhibition of gross wrong, injustice and pecuniary loss inflicted upon an American firm by the very officers whom our government has stationed there for the protection of American citizens and American interests To say that Mr Henderson's course is prompted by petty spite, and Gregory's by an overpowering stupidity, does not lie any fault of the necessity for their removal. At the close of the last session, Mr. Henderson's course was made the subject of inquiry by Mr. Springer's committee, but no definite conclusion was arrived at. From all that we can learn he has systematically oppressed or impeded American enterprise in aid of its British competitors. He is either incompetent, or worse, and ought to be sharply investigated by the state department, if, indeed, that department assumes the slightest interest in the fortunes of enterprising Americans engaged in extending the foreign commerce of their country

NOTES FROM SEATTLE.

A correspondent, writing from the above point under date of the 5th contributes the following.

Mr. H. Yesler is exhibiting commendable public spirit in his various sidewalk and street improvements

The steamers *Messenger* and *Zephyr*, both on the Olympia route, have been on Hammond's ways undergoing repairs

The *Son of the Ocean* left this afternoon in tow of the *Fu ouie*, on her way to San Francisco. The *Son* was heavily laden with coal.

Mr A Kenney has just completed three handsome new buildings at the foot of Columbia street, and families are moving into them

Since the death of President Gunn founder of the Puget Sound business college Mrs Gunn has assumed proprietorship of the institution and is making quite a success of it

The San Francisco steamer *Dakota*, Capt H G. Morse, arrived yesterday with 180 tons of freight and a few passengers She will sail again for the Golden Gate about Saturday.

A disgraceful street fight occurred on Tuesday last, one man knocking another down and then kicking him till he bellowed like a bull The first bully paid $5 for his pastime.

The coal shipped from this place to San Francisco during the month of November amounted to 9 521 tons. This is less than usual owing to want of vessels, and other disappointments

The Territorial University, President A. J. Anderson, has begun a new term with 121 students. The surrounding grounds are very beautiful, overlooking an extended Puget Sound landscape.

Mr Eaton Ebey has opened an extensive commission and produce store at the north end of Yealer's wharf Near by in friendly competition is Ocean F. Copper & Co, in the same business.

Miss Dargon's efforts on Tuesday evening last elicited very general praise. An effort will be made to secure another appearance of this gifted lady before a Seattle audience at an early day.

Dr J. W. Watts delivered his last lecture on temperance to a large audience in the Presbyterian church on Tuesday evening last Four hundred and twenty five names are attached to the blue ribbon pledge

An effort is being made among the Sunday schools to have uniformity of presents for the scholars at the coming Christmas festivities, so as to avoid the usual complaint of those who receive less than others.

Rev. L. A. Wirth pastor of the Baptist church, is delivering a course of lectures on the second coming of Christ Mr W. does away with the ordinary idea of the millenium and makes the second coming identical with the judgment day.

Commercial travelers and others will find the Walla Walla Hotel and Restaurant the best place at The Dalles to procure a comfortable bed and first class meal

FELLOWS'

Compound Syrup

Is composed of ingredients identical with those which constitute Healthy Blood Muscle Nerve and Brain Substance, whilst Life itself is directly dependent upon some of them

Dr Howe's Testimony.

During the past two years I have given Fellows Compound syrup of Hypophosphites a fair though somewhat severe trial in my practice In restoring persons suffering from emaciation and the debility following diphtheria, it has done wonders I can cheerfully recommend its use in all affections of the throat and lungs In several cases considered hopeless it has given relief, and the patients are fast recovering Among these are consumptive and old bronchial subjects, whose diseases have resisted other modes of treatment For impaired digestion and in fact for debility from any cause, I know of nothing equal to it. DR. P. M. BRENAN,

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Private Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases, Catarrh Bronchitis and all diseases of the throat and chest, by an entirely new system only known to himself, Diseases of the Kidneys and Urinary Organs including Spermatorrhœa, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This account in part for his great professional success.

All surgical operations can be performed by his skillful hand and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me will please beware of persons who may try to coax them away to other so-called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M BRENAN the *Medical Lecturer* and read his sign on his door.
